

CERTIFIED OFFSHORE DEVELOPERS ARE OVER 1000% MORE LIKELY TO WIN CONTRACTS FROM NORTH AMERICAN COMPANIES*

IS YOUR COMPANY CERTIFIED?

SALES TECHNOLOGIES' E-BUSINESS CERTIFICATION CARRIES ASSURANCE NO OTHER BRAND CAN DELIVER.

JUST A FEW REASONS WHY:

- Competency verification: Sales Technologies verifies the skills of every certified provider. This provides assurances to potential US buyers that your services and business practices can be trusted.
- Reference services: Sales Technologies stands behind our certification by acting as a US based reference for your company. This invaluable service maximizes your credibility and greatly enhances the likelihood of an interested buyer eventually purchasing your services.
- Personal verification: Sales Technologies personally interviews each certification client via telephone – and, if necessary – in person.
- Intermediary services: For extra fees, Sales Technologies will jointly engage in the presentation process to help you gain a client in the United States. This invaluable service decreases “culture gap” roadblocks and helps you close larger development deals.
- Translation Services: Sales Technologies provides translation services in Asian and Indian dialects. Boost your ability to communicate and close the deal with this unmatched service. Extra fees apply.
- Raise industry standards: Sales Technologies certification raises standards in a challenged industry. Your certification helps promote e-business integrators' legitimacy and perpetuates the industry's growth and longevity.
- Outsourcing Education: Sales Technologies launched OCEPP, the Outsourcing Contract Enforcement and Perpetuation Project to build greater awareness as to the benefits of outsourcing to overseas firms.

DRIVE YOUR REVENUES. BUILD LEGITIMACY. GROW YOUR ENTERPRISE. GET CERTIFIED.
